Editorial Desk

It gives me immense pleasure to release the new issue (Volume III, Issue-III) of the year 2024-25 of our college newsletter. We Institute of Pharmaceutical Science & Research (For Girls) have always sought to develop and shape the talents in our students to a fine quality through excellent academics, co-curricular, extracurricular, sports activities. IOPSR's newsletter is platform to which summarize the latest knowledge in pharma field and activities or events conducted in our college. We hope that additions that are made in newsletters will be liked by you all. Thank you for joining us.

(57) Abstract :

ABSTRACT The present invention relates to design, synthesis and evaluation of novel aryl/heteroaryl substituted pyrazolines for their antioxidant activity. The synthesis of aryl/heteroaryl substituted pyrazolines from intermediate chalcones by condensation with hydrazine hydrate. The intermediate chalcones were synthesized by reacting several aryl/heteroaryl aldehydes with 4-hydroxy acetophenone. These chalcones were further converted into pyrazoline derivatives using ethanol and a catalytic amount of pyridine. The synthesized pyrazoline compounds were characterized by spectral and physicochemical analysis. The in-vitro antioxidant activity of the compounds was assessed against the standard antioxidant drug ascorbic acid, with compound 4b exhibiting noteworthy antioxidant properties. Molecular docking studies revealed significant binding interactions of compound 4b with the COX isoenzyme protein (PDB ID: 4COX), demonstrating better performance than the conventional ligand indomethacin.

(57) Abstract :

The present invention relates to analytical method development and validation of sitagliptin and its salts thereof. The present invention related to analytical method development and validation which is utilized to determine the drug content in bulk, pharmaceutical dosage forms and in biological fluids like blood serum, urine etc. The present invention relates to method development and validation by using spectral and chromatographic techniques, like UV, IR Spectrophotometry, HPLC, HPTLC. More particularly, the present invention relates to analytical method development and validation of sitagliptin and its salt thereof by RP-HPLC.

BOOK PUBLICATION

ABOUT THE BOOK :

This comprehensive MCQ book is meticulously designed to assist Diploma in Pharmacy students in their preparation for the Exit Exam. The book covers all essential subjects, ensuring a thorough understanding of key concepts. Each chapter includes a diverse set of multiple-choice questions, providing students with a robust tool to assess their knowledge and readiness for the exam.

1. **Pharmacocutics:** Explore questions on dosage forms, drug delivery systems, and pharmaceutical calculations to solidify your understanding of fundamental concepts in pharmacocutics.
2. **Pharmacy Law and Ethics:** This section focuses on questions related to legal aspects and ethical considerations in pharmacy practice, including the Drugs and Cosmetics Act and Pharmacy Act.
3. **Community Pharmacy and Management:** Delve into topics on community pharmacy operations, patient counseling, and inventory management, with MCQs that test your practical knowledge and problem-solving abilities.
4. **Hospital and Clinical Pharmacy:** Prepare with questions that cover hospital pharmacy services, clinical pharmacy practices, and the roles and responsibilities of a hospital pharmacist.
5. **Human Anatomy and Physiology:** Reinforce your knowledge of the human body's structure and function with questions on organ systems, physiological processes, and homeostasis.
6. **Pharmacology:** Challenge your understanding of drug actions, side effects, therapeutic uses, and pharmacokinetics with a wide array of MCQs.
7. **Pharmaco-therapeutics:** This section presents questions on the therapeutic use of drugs in various disease conditions, emphasizing clinical decision-making and patient care.
8. **Pharmaceutical Chemistry:** Test your grasp of chemical principles, drug synthesis, and analysis with questions that cover organic, inorganic, and medicinal chemistry.
9. **Biochemistry and Clinical Pharmacy:** Focus on biochemical processes and clinical applications, with MCQs that integrate biochemical pathways and clinical correlations.
10. **Pharmacognosy:** Discover questions on the identification, classification, and therapeutic use of medicinal plants and natural products.
11. **Social Pharmacy:** Engage with questions on public health, patient education, and the role of the pharmacist in promoting community well-being.

Each chapter is accompanied by detailed explanations of the correct answers, allowing students to not only practice but also understand the reasoning behind each choice. This MCQ book is an essential resource for any Diploma in Pharmacy student aiming to excel in their Exit Exam and pursue a successful career in pharmacy.

ABOUT THE AUTHORS :

Mr. Chandan Kumar Raikwar serves as an Assistant Professor at Sahya Sai College of Pharmaceutical and Research on Jajau Road, Orai, Uttar Pradesh. With dedication and expertise, he contributes to shaping the future of aspiring pharmaceutical professionals. Through his guidance and mentorship, he instills knowledge and fosters a passion for excellence among his students. Professor Raikwar's commitment to academic rigor and innovation enriches the educational experience at the college.

Mr. Sachin Kumar Agrahari working as Principal in Sammak College of Pharmacy, Varanasi. He had completed his M.Pharm in the Department of Pharmacology. He has 10 years teaching experience. He has a good practical knowledge. Currently, he is pursuing Ph.D. During his teaching he involved in academic activities, seminars, and poster presentations. He has published two books, research articles and many review articles.

Dr. Ravi Dnyandeo Hole is currently serving as an Assistant Professor at the Institute of Pharmaceutical Science and Research for Girls, Swami-Chincholi, Pune. With eight years of teaching experience, he has made significant contributions to both academia and research. A graduate of Bhami Vidyapeeth, Pune, he earned his Master's degree in Pharmaceutics from Rajiv Gandhi University of Health Sciences, Bengaluru, and his Ph.D. in Pharmacy from Sunjeev University, Rajasthan. Dr. Hole has authored a book on Biopharmaceutics and Pharmacokinetics and published numerous research papers in reputed national and international journals. His active participation in seminars, conferences, and faculty development programs highlights his commitment to professional growth and academic excellence.

Ms. Nikita Bibhishan Durande, a Lecturer at the Institute of Pharmaceutical Science and Research for Girls, brings three years of valuable teaching experience to the academic field. She has made significant contributions to pharmaceutical research, with three international review papers to her credit. Her dedication to education and research continues to enrich the learning environment, inspiring the next generation of pharmacists.

Ms. Sandhya Ramesh Kolekar, Assistant Professor at the Institute of Pharmaceutical Science and Research for Girls, is a dedicated educator and researcher. With a B.Pharm and M.Pharm from SVP's College of Pharmacy, Baranatti, she has contributed to the field through her published work in international journals. Her research interests focus on innovative techniques like nanoparticles, nanosuspensions, and solubility enhancement for poorly soluble drugs. Her commitment to advancing pharmaceutical sciences inspires both students and peers alike.
